"Ho, ho! There isn't the least danger in the world. I would insure his life for \$1,000,000 for twenty-five cents."

"I don't know about that, Ed. There are a lot of bad men in the world who would be willing to risk their lives for

the sake of getting a little notoriety, even if they did not have any fancied

wrong to avenge."
"That may all be, but they'll never shoot Mr. Blaine for any such reason."

The fatal rapidity with which slight Colds and Coughs frequently developinto the gravest maladies of the throat and lungs, is a consideration which should impel every prudent person to keep at hand, as a household remedy, a bottle of AYER'S CHERRY PECTORAL.

Nothing class gives such immediate relief and works so sure a cure in all affections of this class. That eminent physician, Prof. F. Sweetzer, of the Maine Medical Behool, Brunswick, Me., says:—

"Medical science has produced no other anodyne expectant to send as AYER'S CHERRY PECTORAL. It is invaluable for diseases of the throat and lungs."

The same opinion is expressed by the well-known Dr. L. J. Addison, of Chicago, Ill., who says:

"I have never found, in thirty-five years of continuous study and practice of medicine, any preparation of so great value as AYER'S CHERRY PROTORAL, for treatment of diseases of the throat and lungs. It not only breaks up colds and cures severe coughs, but is more effective than anything else in relieving even the most serious bronchial and pulmonary affections."

AYER'S Cherry Pectoral

Is not a new claimant for popular confidence, but a medicine which is to-day saving the lives of the third generation who have come into being since it was first offered to the public.

There is not a household in which this invaluable remedy has once been introduced where its use has ever been abandoned, and there is not a person who has ever given it a proper trial for any threat or lung disease susceptible of cure, who has not been made well by it.

AYER'S CHERRY PECTORAL nas, in numberless instances, cured obstinate

AYER'S CHERRY PECTORAL nas, in numberless instances, cured obstinate cases of chronic Bronchitts, Larnyghts, and even acute Pneumonia, and has saved many patients in the earlier stages of Pulmondry Consumption. It is a medicine that only requires to be taken in small doses, is pleasant to the faste, and is needed in every house where there are children, as there is nothing so good as AYER'S CHERRY PECTORAL for treatment of Croup and Whooping Cough.

These are all plain facts, which can be verified by anythody, and should be remembered by everybody;
